È NATA UNA NUOVA STELLA

Ci sono idee che nascono nel caos, nel frastuono delle contaminazioni, nel crepitio costante delle ambizioni, in quelle nebulose di creatività e creazione che danno vita a nuove forme del reale, potenti e luminose come stelle. Da queste idee sviluppiamo i progetti con cui realizziamo i nostri prodotti che concretizziamo con sapienza, artigianalità, ricerca, studio, intuizione. Lo facciamo ogni giorno dal 1996, esattamente da quando quattro amici decisero di intraprendere una nuova avventura fatta di materia e di ingegno. La nostra è una storia speciale, illuminata da quella stella che, da quasi tre decadi, ci guida a realizzare il prodotto migliore per gli spazi di ogni persona e a trovare la soluzione più adatta a ognuno. Quello che facciamo quotidianamente all'interno dei nostri uffici o nel reparto di produzione è trasformare le idee in prodotti ideali, capaci di assecondare ogni esigenza di vita contemporanea. Per riuscirci conosciamo un solo modo: essere in movimento, evolverci continuamente. La nostra è quindi una storia viva, in continuo mutamento, perché a mutare ogni minuto siamo noi e il presente che viviamo.

Oggi cambiamo ancora e lo facciamo per creare nuove soluzioni, con lo sguardo costantemente proiettato al futuro, ma senza mai dimenticare quel giorno in cui quei quattro amici decisero di far nascere qualcosa di diverso. È stato un inizio unico da cui ha preso il via ogni cosa andando a occupare, nel corso degli anni, uno spazio sempre più consistente, come testimoniano i 20.000 metri quadrati su cui si sviluppa la nostra azienda o i tantissimi piccoli e grandi ambienti in cui i nostri prodotti si inseriscono, regalando funzionalità e comfort, conseguendo così quello che è da sempre il nostro obiettivo principale. Per raggiungerlo operiamo, fatichiamo, studiamo e, naturalmente, cerchiamo idee, perché è dalle idee che prende forma il nostro lavoro. Lo facciamo con la passione che avevamo il primo giorno e con la stessa voglia di creare nuove stelle e illuminare nuovi spazi.

A NEW STAR IS BORN

There are ideas that are born in chaos, in the din of contamination, in the constant crackle of ambitions, in those nebulae of creativity and creation that give life to new forms of reality, powerful and bright as stars. From these ideas we develop the projects with which we create our products that we materialize with wisdom, craftsmanship, research, study, intuition. We have been doing it every day since 1996, exactly since four friends decided to embark on a new adventure made of matter and ingenuity. Ours is a special story, illuminated by that star that, for almost three decades, has guided us to create the best product for each person's spaces and to find the most suitable solution for each one. What we do every day inside our offices or in the production department is to transform ideas into ideal products, capable of satisfying every need of contemporary life. To succeed we know only one way: to be in motion, to continually evolve. Ours is therefore a living story, in continuous change, because we and the present we live in are changing every minute.

Today we change again and we do it to create new solutions, with our eyes constantly projected towards the future, but without ever forgetting that day when those four friends decided to create something different. It was a unique beginning from which everything started, occupying, over the years, an increasingly consistent space, as evidenced by the 20,000 square meters on which our company develops or the many small and large environments in which our products are inserted, providing functionality and comfort, thus achieving what has always been our main objective. To achieve it we work, we work hard, we study and, naturally, we look for ideas, because it is from ideas that our work takes shape. We do it with the passion we had on the first day and with the same desire to create new stars and illuminate new spaces.

COLLEZIONE PRISMA
PRISMA COLLECTION

La Filosofia: Un prisma è un solido geometrico essenziale che ha la magica proprietà di scomporre la luce in tutto il suo spettro di colori. Allo stesso modo, la collezione PRISMA prende un concetto unico e puro – l'essenzialità nel design del bagno – e lo scompone in tre interpretazioni distinte, tre "facce" della stessa anima.

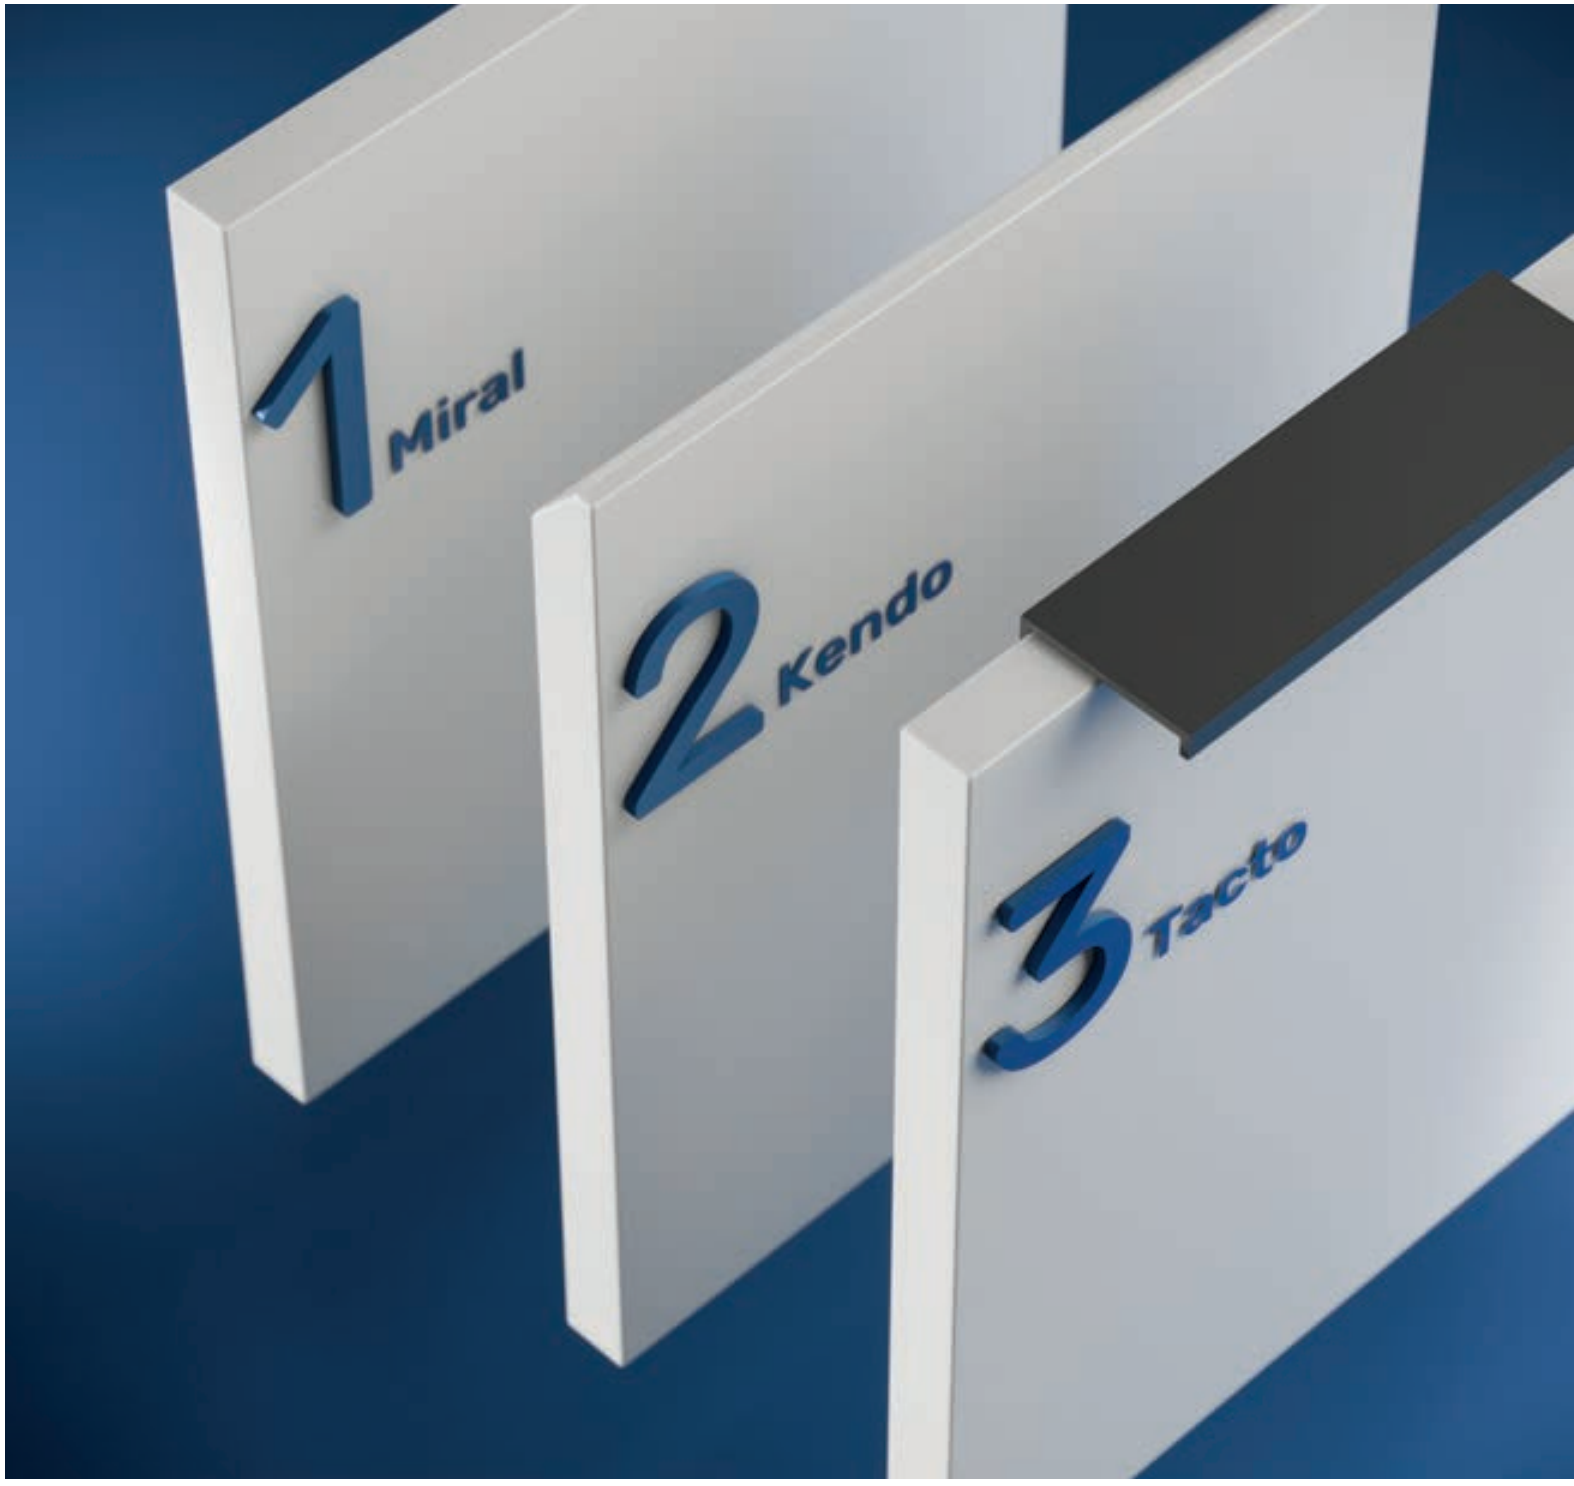

The Philosophy
A prism is a pure geometric form with the remarkable ability to reveal the full spectrum of light. In much the same way, the PRISMA collection transforms the essence of bathroom design into three distinctive interpretations – three different "faces" of the same soul.

PRISMA,
DESIGN IN TRE FORME

PRISMA,
THREE SHAPES OF DESIGN

All'interno della collezione PRISMA, ogni anta rappresenta una diversa "rifrazione" del design. MIRAL, con profilo a 90 gradi, esprime la Visione: forma pura, chiarezza e architettura essenziale. KENDO, con profilo a 45 gradi, incarna il Gesto: un taglio preciso e dinamico, elegante come una lama. TACTO, con profilo squadrato e maniglia integrata, racchiude la Sensazione: il tocco, la vicinanza, l'esperienza tattile del design. Tre anime, tre interpretazioni: la purezza della visione, l'eleganza del gesto, il piacere della sensazione.

Within the PRISMA collection, each door is a different "refraction" of design. MIRAL, with its 90-degree profile, embodies Vision: pure form, clarity, and essential architecture. KENDO, with its 45-degree profile, reflects the Gesture: a precise, dynamic cut, as elegant as a blade. TACTO, with a squared profile and integrated handle, conveys Sensation: touch, closeness, the tactile experience of design. Three souls, three interpretations: the purity of vision, the elegance of gesture, the pleasure of sensation.

PRISMA DOORS

PRISMA non è solo una collezione di mobili, ma un modo di interpretare lo spazio. Ogni anta è una rifrazione diversa della luce del design, che permette di personalizzare l'ambiente secondo la propria sensibilità, pur mantenendo una coerenza assoluta.

PRISMA is not just a collection of furniture, but a way of interpreting space. Each door becomes a different refraction of design's light, allowing the environment to be personalized according to individual taste while preserving a sense of absolute harmony.
