È NATA UNA NUOVA STELLA

Ci sono idee che nascono nel caos, nel frastuono delle contaminazioni, nel crepitio costante delle ambizioni, in quelle nebulose di creatività e creazione che danno vita a nuove forme del reale, potenti e luminose come stelle. Da queste idee sviluppiamo i progetti con cui realizziamo i nostri prodotti che concretizziamo con sapienza, artigianalità, ricerca, studio, intuizione. Lo facciamo ogni giorno dal 1996, esattamente da quando quattro amici decisero di intraprendere una nuova avventura fatta di materia e di ingegno. La nostra è una storia speciale, illuminata da quella stella che, da quasi tre decenni, ci guida a realizzare il prodotto migliore per gli spazi di ogni persona e a trovare la soluzione più adatta a ognuno. Quello che facciamo quotidianamente all'interno dei nostri uffici o nel reparto di produzione è trasformare le idee in prodotti ideali, capaci di assecondare ogni esigenza di vita contemporanea. Per riuscirci conosciamo un solo modo: essere in movimento, evolverci continuamente. La nostra è quindi una storia viva, in continuo mutamento, perché a mutare ogni minuto siamo noi e il presente che viviamo.

Oggi cambiamo ancora e lo facciamo per creare nuove soluzioni, con lo sguardo costantemente proiettato al futuro, ma senza mai dimenticare quel giorno in cui quei quattro amici decisero di far nascere qualcosa di diverso. È stato un inizio unico da cui ha preso il via ogni cosa andando a occupare, nel corso degli anni, uno spazio sempre più consistente, come testimoniano i 20.000 metri quadrati su cui si sviluppa la nostra azienda o i tantissimi piccoli e grandi ambienti in cui i nostri prodotti si inseriscono, regalando funzionalità e comfort, conseguendo così quello che è da sempre il nostro obiettivo principale. Per raggiungerlo operiamo, faticiamo, studiamo e, naturalmente, cerchiamo idee, perché è dalle idee che prende forma il nostro lavoro. Lo facciamo con la passione che avevamo il primo giorno e con la stessa voglia di creare nuove stelle e illuminare nuovi spazi.

A NEW STAR IS BORN

There are ideas that are born in chaos, in the din of contamination, in the constant crackle of ambitions, in those nebulae of creativity and creation that give life to new forms of reality, powerful and bright as stars. From these ideas we develop the projects with which we create our products that we materialize with wisdom, craftsmanship, research, study, intuition. We have been doing it every day since 1996, exactly since four friends decided to embark on a new adventure made of matter and ingenuity. Ours is a special story, illuminated by that star that, for almost three decades, has guided us to create the best product for each person's spaces and to find the most suitable solution for each one. What we do every day inside our offices or in the production department is to transform ideas into ideal products, capable of satisfying every need of contemporary life. To succeed we know only one way: to be in motion, to continually evolve. Ours is therefore a living story, in continuous change, because we and the present we live in are changing every minute.

Today we change again and we do it to create new solutions, with our eyes constantly projected towards the future, but without ever forgetting that day when those four friends decided to create something different. It was a unique beginning from which everything started, occupying, over the years, an increasingly consistent space, as evidenced by the 20,000 square meters on which our company develops or the many small and large environments in which our products are inserted, providing functionality and comfort, thus achieving what has always been our main objective. To achieve it we work, we work hard, we study and, naturally, we look for ideas, because it is from ideas that our work takes shape. We do it with the passion we had on the first day and with the same desire to create new stars and illuminate new spaces.
